The Consumer Product Safety Office (CPSO) safeguards consumer safety by ensuring consumer products supplied in Singapore are safe for use and comply with applicable safety standards. The CPSO is an office of the Competition and Consumer Commission of Singapore (“CCS”), which is a statutory board of the Ministry of Trade and Industry.

Visit www.consumerproductsafety.gov.sg for more information.

1. Preface

This guidebook serves to guide Registered Suppliers (RSes) on the use of the new Consumer Product Safety Accuracy System (CPSA+).

The CPSA+ replaces the previous CPSA used by RSes for various functions such as submission of SDoC and viewing the status of their registered Controlled Goods (CGs).

In addition to the existing functions such as application/renewal of SDoC, the new CPSA+ system incorporates additional changes including:

- Sending of email notifications to RSes regarding changes in their CG status (e.g. actions required from RS regarding CGs due for renewal)
- Updated user dashboard allowing RSes to track status of existing CGs and Allocated Certification Numbers (ACNs)
- RSes can easily identify the CABs responsible for registering/renewing their CGs using the system

The Consumer Product Safety Office (CPSO) reserves the right to revise this guidebook. Users may obtain the latest version of the guidebook from the CPSA+ homepage at www.cpsaplus.gov.sg.

We appreciate any feedback for improvements to the guidebook. Please send your feedback to: consumer_product_safety@ccs.gov.sg

2. Logging into RS account

Important Information

Only Registered Suppliers can apply for the Safety Mark. Application to become a RS can be submitted through the CPSA+ system at the login screen (Refer to section 3)

Existing RSes do not need to submit another application and may proceed to log into their existing RS account using their CorpPass

Business entities registered in Singapore (i.e., entities with a valid UEN) will already have a CorpPass account. Your CorpPass Admin will need to log into the RS company CorpPass account to **assign users to the CPSAPLUS e-service** (see below).

Detailed CorpPass guide available at: <https://www.corppass.gov.sg/corppass/common/userguides>

After setting up CorpPass access, go to www.cpsaplus.gov.sg and click on “LOG IN VIA CORPPASS”

Scan the QR code using your Singpass app or key in your password manually to log in.

[Retrieve Singpass ID](#)
[Reset password](#)

If a company's UEN cannot be found in the database of Registered Suppliers (i.e., the company has not yet registered as an RS), the CPSA+ system will prompt the company to register as a RS to proceed.

If your company is an existing RS and encounters this screen, please check that the UEN was entered correctly; contact the CPSO if the issue persists

Register as a Supplier

Your UEN is not registered in our system,
would you like to register as a registered supplier ?

[REGISTER NOW](#)

Terms and Conditions

Suppliers will be redirected to the terms and conditions for RS registration; agree to the terms and conditions to proceed

Other responsibilities of the Registered Supplier

15. The Registered Supplier shall be responsible for effecting any recall/ rectification actions for the registered Controlled Goods as deemed necessary by the Consumer Product Safety Office.

16. The Registered Supplier shall print or affix the Safety Mark on the registered Controlled Goods in accordance with the Consumer Product Safety Office requirements. If however, the registered Controlled Goods are of such nature that prevent the goods from being so marked, the Safety Mark may be affixed on the packaging of the registered Controlled Goods.

17. The Registered Supplier shall indemnify the Consumer Product Safety Office fully against any loss or damages suffered by the Consumer Product Safety Office arising from or as a result of registering the product of the Registered Supplier.

18. Any application for renewal of registration of any Controlled Goods shall be made not less than 3 months before the registration of the Controlled Goods expires.

☒ Please indicate that you have read and agree to the Terms and Conditions above.

[Proceed](#)

Company Information

The CPSA+ system automatically fills in the company’s business name and address based on the UEN submitted.

Please indicate if there is an alternate mailing address. Otherwise indicate that the mailing address is identical to the official business address.

The Consumer Product Safety Office (CPSO) safeguards consumer safety by ensuring consumer products supplied in Singapore are safe for use and comply with applicable safety standards. The CPSO is an office of the Competition and Consumer Commission of Singapore ("CCS"), which is a statutory board of the Ministry of Trade and Industry.

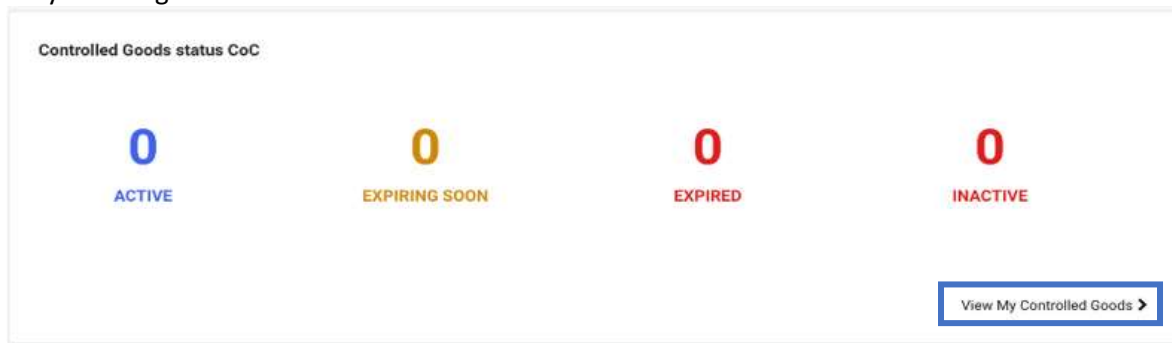

Visit www.consumerproductsafety.gov.sg for more information.

4.1. Controlled Goods Status (CoC)

Provides an overview of the number of:

- Currently active CoCs
- Expiring CoCs
 - These CoCs are due to expire within the next 6 months. While the CG can continue to be supplied during this period, it is strongly advised for RS to start renewal procedures.
- Expired CoCs
 - These CoCs have already expired, and the CGs can no longer be supplied. Their registration can no longer be renewed unless an appeal is successfully made to the CPSO.
- Inactive CoCs
 - These CoCs have had their registration withdrawn/suspended. The CG cannot be supplied while the CoC status is "Inactive".

RS can also click on "view my Controlled Goods" to be redirected to the list of Controlled Goods they have registered

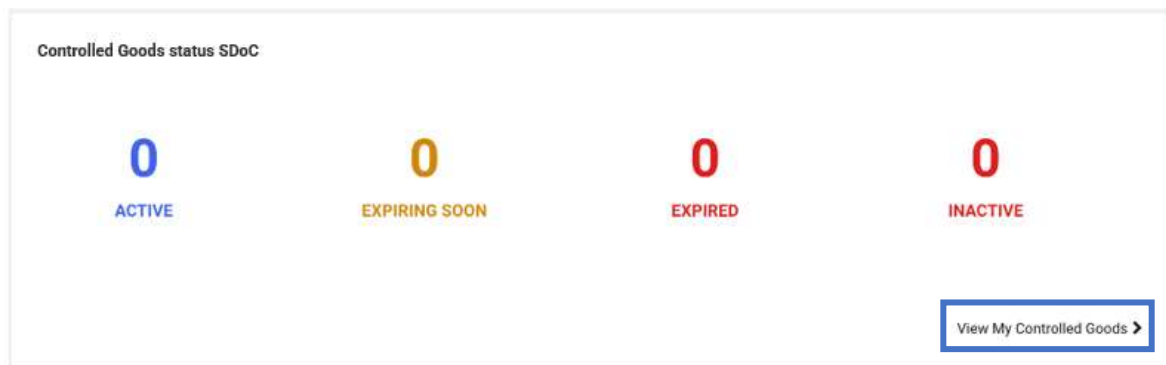

4.2. Controlled Goods Status (SDoC)

Provides an overview of the number of:

- Currently active SDoCs
- Expiring SDoCs
 - These SDoCs are due to expire within the next 6 months. While the CG can continue to be supplied it is strongly advised for RS to start renewal procedures.
- Expired SDoCs
 - These SDoCs have already expired, and the CG can no longer be supplied. Their registration can no longer be renewed unless an appeal is successfully made to CPSO
- Inactive SDoCs
 - These SDoCs have had their registration withdrawn/suspended. The CG cannot be supplied while the SDoC status is "Inactive"

RS can click on "view my Controlled Goods" to view all Controlled Goods they have registered

4.3. Ongoing Allocated Certification Numbers (ACN)

RS can track the number and status of the latest 5 unregistered Controlled Goods that were issued ACN, including details such as:

- Trademark of the Controlled Good (i.e., brand name CG is supplied under)
- Model number of the Controlled Good
- Number of days since ACN has been issued with Controlled Good Registration not yet been completed

Only the latest 5 ACNs issued will be displayed here. Selecting "view all" (bottom left) will show RS the full list of unregistered Controlled Goods that were issued ACN.

Note:

- Allocated Certification Numbers (ACN) are probationary Safety Mark numbers issued to registered suppliers before their Controlled Goods complete registration.
- ACNs are issued as a goodwill gesture to allow RS to prepare the CG for sale in Singapore (e.g., liaising with factory to print Safety Mark on rating label).

Important Information

Controlled Goods displayed in the "Allocated Certification Numbers (ACN)" panel have not completed registration and cannot be supplied in Singapore

Issuing of ACN is a goodwill gesture and does not indicate the Controlled Good has completed registration. Only Controlled Goods that are registered with the CPSO (i.e., Controlled Goods issued with an LOA from CPSO and appearing in the RS CPSA+ account as registered) can be supplied in Singapore

Ongoing Allocated Certification Numbers (ACN)

5. RS Profile Page Overview

If there are any changes to the RS information (e.g., changes to RS contact person(s), changes to RS addresses, etc.) please login to the CPSA+ to edit the RS profile. There is no need to email CPSO regarding these changes.

Registered Suppliers can view their company profile page by selecting ‘edit profile’ (top left of the landing page) upon logging in.

Editing RS profile

Select “edit” at the company profile page (top right)

6. Overview: “My Controlled Goods” Page

RS can select “My Controlled Goods” from the sidebar on the left to view all their existing CGs

The “My Controlled Goods” page allows RS to view information on all CGs they have registered (both CoCs and SDoCs)

The various tabs allow RS to filter their registered CGs:

- All CGs
 - No Filtering is applied. All CGs registered by the RS are displayed.
- Due for renewal
 - Only CGs with registrations expiring within the next 6 months will be shown. RS are advised to begin renewing these CGs.
- Expired
 - Only CGs which have their registrations expired will be shown. These CGs can no longer be supplied. Their registration can no longer be renewed unless an appeal is successfully made to the CPSO.
- Inactive
 - Only CGs which have had their registration withdrawn will be shown. These CGs can no longer be supplied.

The Consumer Product Safety Office (CPSO) safeguards consumer safety by ensuring consumer products supplied in Singapore are safe for use and comply with applicable safety standards. The CPSO is an office of the Competition and Consumer Commission of Singapore ("CCS"), which is a statutory board of the Ministry of Trade and Industry.

Visit www.consumerproductsafety.gov.sg for more information.

6B. SDoC Registration

6B.1. Important Information regarding SDoC submission

1) False Declarations during SDoC submission

Submission of false declaration(s) on SDoC applications is an offence, and offenders may be penalized accordingly. False declarations made during SDoC submission include:

- Registering CG(s) classified as Medium-risk or High-risk by falsely declaring them as Low-risk CG(s)
- Falsely declaring that CG(s) complies with the required Safety Standard(s) when the supplier does not have appropriate test report(s) supporting their statement

SDoCs found to have false or wrong declaration(s) may have their validity withdrawn. No refunds will be issued for SDoCs that have their validity withdrawn in this manner.

2) Only low risk CGs can be registered through SDoC submission

The following four categories are classified as low risk CGs. The RS can choose to register only CGs from these categories via SDoC instead of approaching a Conformity Assessment Body for Certificate of Conformity (CoC).

Controlled Good	Definition	Minimal applicable Safety Standard(s)
Air Cooler 	Electrical appliance intended for household use to agitate the air and equipped to use water as a cooling medium, with rated voltage of not more than 250 Vac.	IEC 60335-2-98: 2002
Fuse (≤13 amperes) for use in a plug 	Devices that, by the fusion of one or more of their specially designed and proportioned components, open the circuit in which they are inserted and break the current when it exceeds a given value for a sufficient time.	SS 167: 1977
Room air-conditioner 	Electrical appliances intended for household use and designed as self-contained units for mounting on a window or through a wall to provide conditioned air to an enclosed area, with rated voltage of not more than 250 VAC.	IEC 60335-2-40: 2002
Table lamp/ Standing lamp 	Electrical portable general-purpose luminary intended for household use with supply voltage of not more than 250 VAC.	IEC 60598-2-4: 2017

All other CGs are classified under the medium and high-risk categories and can only be registered using a Certificate of Conformity (CoC).

A Controlled Good (CG) does not need to be registered using both SDoCs and CoCs (Certificates of Conformity). The RS may choose if a low-risk CG they intend to supply is to be registered either through submission of an SDoC or a CoC.

6B.2. SDoC application process

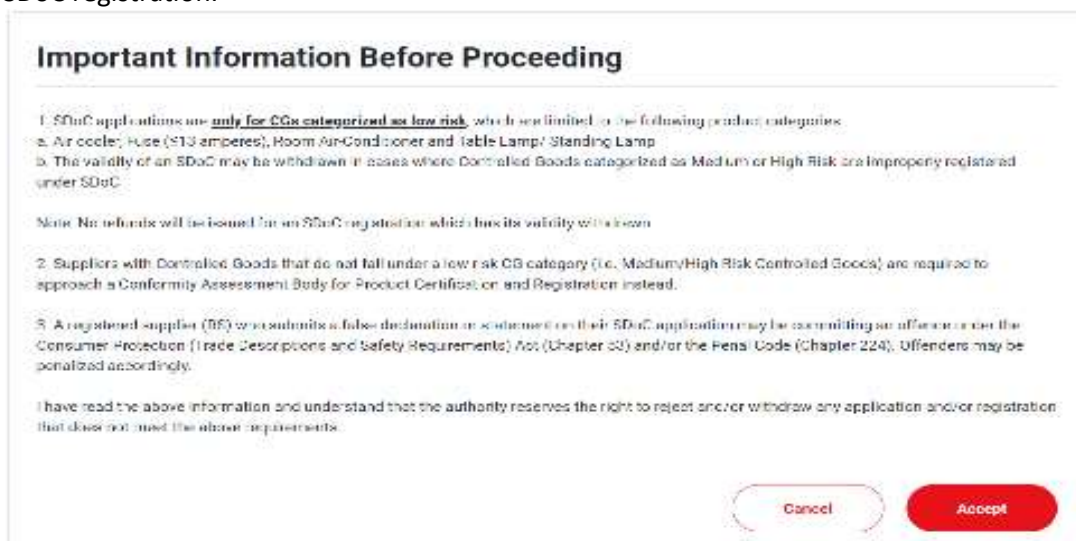

Select “My Controlled Goods” at the sidebar on the left.

Select “New Registration”

Read the information in the pop-up window and press “accept” upon confirming the CG is eligible for SDoC registration.

Read and accept the terms and conditions to proceed

Key in the name and designation of the Signatory

The Signatory for an SDoC guarantees on behalf of the RS that (1) the information provided during SDoC registration is correct, and (2) the Controlled Good complies with the CPSO's regulatory requirements. Whenever possible, the Signatory should be the person in charge of the RS; however, the CPSO will also accept someone working at the RS in a supervisory role as a Signatory with regards to Controlled Goods needing SDoC registration (e.g., Management members of the regulatory compliance team).

The signatory must be an employee of the RS. Both the signatory and the RS will be held responsible should the information be inaccurate.

Signatory Name ⓘ *

Signatory Designation ⓘ *

Key in the necessary details in the fields provided. Please see below for a list of fields.

Field	Description
Product Category ⓘ * <input type="text" value="- Select an option -"/>	Select from the drop-down list. If the CG does not fall under any of the categories listed, it cannot be registered via an SDoC.
Trade Mark ⓘ * <input type="text"/>	Fill in the brand of the CG. Information submitted should match the brand listed in the test report.
Model Number * <input type="text"/>	Fill in the model of the CG. Information submitted should match the model number listed in the test report.
Product Standard (1) * Standard Version (1) * <input type="text" value="- Select an option -"/> <input type="text" value="- Select an option -"/> Expand Product Standards ▼	<p>Refers to the safety standards that the low-risk CG complies with. The test report will list the relevant safety standard(s) that the CG is tested against. Contact the CPSO if the standard listed on the test report does not appear on the provided drop down list.</p> <p>If there are multiple product standards, click "Expand Product Standards"</p>
Linked CG ⓘ <input type="text" value="- Select an option -"/>	Indicate whether the CG being registered was previously registered under another Safety Mark number. Leave this field blank if not applicable.
Product Description ⓘ <input type="text"/>	Provide technical information about the CG, e.g. What is the CG's rated voltage and rated current? Is it a class I or class II appliance?
	If the CG being registered has Internet of Things (IoT) functions, RS needs to fill in form RS04 and file it in the technical file. For more information, please refer to circular CW-CPS-2020-14 on the CPSO website.

The Consumer Product Safety Office (CPSO) safeguards consumer safety by ensuring consumer products supplied in Singapore are safe for use and comply with applicable safety standards. The CPSO is an office of the Competition and Consumer Commission of Singapore ("CCS"), which is a statutory board of the Ministry of Trade and Industry.

6C. Applying for SDoC renewal

Important Information:

Like a CoC, an SDoC is valid for three (3) years. RS intending to continue supplying their registered CG beyond 3 years must submit an application for SDoC renewal online. Please note that the RS is to keep track of their SDoC validity and apply for renewal at least six (6) months prior to expiry.

Select the "Due for Renewal" tab under the "My Controlled Goods" page

Product Description

Standing lamp rated 110-240V, 50-60Hz, Class II, IP20

Declare if there have been any technical modifications made to the CG since the previous registration/renewal. Technical modifications affect the CG's safety, and includes changes to internal components, wiring or enclosure design. If there is a technical change to the product, an updated test report is required.

Does the CG have modifications?

If there are technical modification(s) to the registered Controlled Goods which affect the design, construction, or material(s) of the Controlled Goods, or which may otherwise affect conformance of the Controlled Goods to the Authority's requirements, please select "Yes", (otherwise, "No").

Note: If you need to change the modification status, you have to delete your renewal/amendment draft and start a new application.

The Consumer Product Safety Office (CPSO) safeguards consumer safety by ensuring consumer products supplied in Singapore are safe for use and comply with applicable safety standards. The CPSO is an office of the Competition and Consumer Commission of Singapore (“CCS”), which is a statutory board of the Ministry of Trade and Industry.

Visit www.consumerproductsafety.gov.sg for more information.

Users will be redirected to the payment screen (see below). Key in the required payment information to submit payment

Important Information:

Do not press “back” or “refresh” in the browser when on this screen as it could lead to error in payment submission.

If CABs need to go back to the “Bills and Payments” screen without making payment, please use the ‘back’ button in the payment screen

When the application has been approved, the entry under the “All CGs” tab of “My Controlled Goods” will be updated.

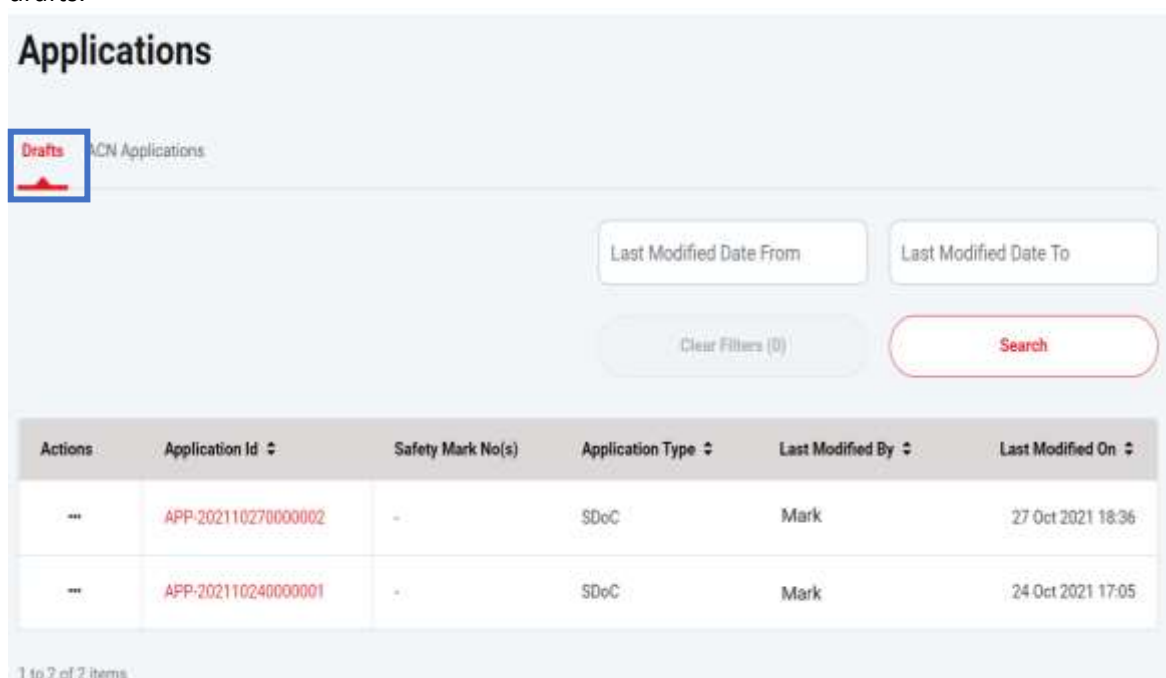

7. Application Page Overview

RS can select “Application” from the sidebar on the left to view the complete list of ongoing drafts and ACNs.

7.1. Viewing ongoing drafts

RS will be redirected to the Applications page where they can view the list of ongoing drafts and ACNs. RS can select the “drafts” tab to view the list of ongoing submissions they have saved as drafts.

Click on the application ID to continue with the application. Once a draft application is completed it will be automatically removed from the application page.

7A. Viewing list of ongoing ACNs from the application page

Select the “ACN Applications” tab to view the full list of ongoing ACNs under your company.

ACNs will be removed from the list once the product has completed registration

Important Information

Controlled Goods displayed in the “ACN Applications” page have not completed registration and cannot be supplied in Singapore

Issuing of ACN is a goodwill gesture and does not indicate the Controlled Good has completed registration. Only Controlled Goods that are registered with the CPSO (i.e., Controlled Goods with an LOA from CPSO) can be supplied in Singapore

8. Bills & Payment page

Select “Bills & Payment” from the sidebar on the left to view all payment related information.

8.1. Viewing ongoing payments

The “Pending Payment” tab allows RS to view outstanding payments (e.g., for SDoC registration/renewals). RS are strongly advised to submit any outstanding payments in order to complete pending registration/renewals.

Please note that submissions made by CABs on RSes’ behalf will not be shown here. For example, if an RS has approached a CAB to renew their CoC, the RS will not be required to submit payment directly through CPSA+ as payment has already been made by the CAB.
