

Our Ref : Cir 2016-01
Date : 7 September 2016
To : CABs & Suppliers of Electrical Breast Pumps
Subject : Safety Requirements for Adaptor(s) bundled together with Breast Pumps

Under the Singapore Consumer Protection (Safety Requirements) Registration Scheme or CPS Scheme in short, 45 categories of household electrical, electronic and gas appliances and accessories are classified as Controlled Goods. Controlled Goods would require registration with SPRING Singapore and affixed with the Safety Mark before they can be supplied in Singapore. More information about the CPS Scheme is available on www.spring.gov.sg/safety.

As the administrator of the CPS Scheme, we wish to inform that the adaptor bundled together with breast pump for sale is classified as Controlled Good. The applicable safety standards for these adaptors are IEC 60601-1, IEC 61558-2-6 or IEC 61558-2-16. Suppliers are given three months from the date of this circular to comply with the requirements set forth and register their adaptors.

The procedure to get your Controlled Goods certified by our designated Conformity Assessment Body and registered with SPRING Singapore is included in the Annex of this circular for easy reference. Should you require any clarification on this circular, please do not hesitate to contact us at 1800 773 3163 or email safety@spring.gov.sg.

Thank you.

Yours faithfully

Sim Geok Seng

Head
