Subject: Registration of Fans under the Consumer Protection (Safety Requirements) Registration Scheme

Dear Registered Suppliers,

This circular is to inform Registered Suppliers on the change in safety standard for Fans (limited to ceiling, table, standing and wall fans), regulated under the Consumer Protection (Safety Requirements) Registration Scheme (CPS Scheme).

Under the CPS Scheme, 33 categories of household electrical, electronic and gas appliances and accessories are classified as Controlled Goods. Controlled Goods are required to be tested and certified to specified safety standards, registered with Enterprise Singapore, and affixed with the Safety Mark before they can be supplied in Singapore. Fans (limited to ceiling, table, standing and wall fans) intended for household use are one of the categories of Controlled Goods. More information about the CPS Scheme is available at:

<https://www.enterprisesg.gov.sg/quality-standards/consumer-protection/for-suppliers/regulations-and-guidelines-for-suppliers/regulations-and-guidelines-for-suppliers/consumer-protection-safety-requirements-regulations>

Enterprise Singapore wishes to inform that for the purpose of testing and certification for registration under the CPS scheme the required safety standard for fans will be revised as set out:

Controlled Goods	Minimum edition of safety standard
Fans	<u>For table, standing or wall fans:</u> IEC 60335-2-80: 2002 OR SS 655:2020
	<u>For ceiling fans:</u> IEC 60335-2-80: 2002 And SS 655:2020 (Annex ZA only) OR SS 655:2020

SS 655:2020 is now available as an alternate minimum edition for registration and renewal of Fans under the CPS scheme. IEC 60335-2-80: 2002 shall continue to be the minimum applicable edition of IEC standards for registration and renewal of Fans under the CPS scheme.

SS 655:2020 (Annex ZA) shall replace SS 360: 1992 as the minimum edition of the supplementary standard for registration and renewal of ceiling fans. However, ceiling fans previously certified to SS 360: 1992 will not need to be recertified to SS 655:2020.

The current minimum edition of the additional standards for ceiling fans – SS 360: 1992 shall continue to apply up to **31st Mar 2022**. Thereafter, SS 360: 1992 shall not be accepted for all **new registrations** of ceiling fans under the CPS scheme.

For further queries you may email to Mark_Ng@enterprisesg.gov.sg

Thank you.

Yours sincerely,

Mr Andrew Yap
Deputy Director
for the Safety Authority
