Comments

During the testing of this sample, it was found that the product did not comply with the safety and informational requirements for soother holders:

- EN 12586:2007+A1:2011 – Child use and care articles – Soother holder – Safety requirements and test methods.

The ventilation holes on the soother holder are not sufficiently large, posing a suffocation hazard.

The soother holder is too long, posing a strangulation hazard.

The soother holder has small parts which can be detached easily; these parts pose a choking hazard.

Instructions and warnings provided were not in accordance to the requirements (e.g. content, format, language).

No report of incident or injury related to the use of this product has been received to date.
