

SAFETY ALERT: ZHOND TOY Magnetic Building Block Set

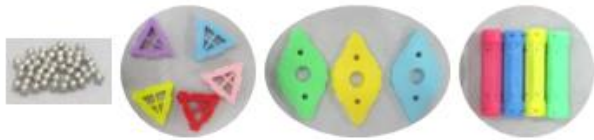

Sample taken from
Seller "RC-BabyAndKids" on Lazada

Comments

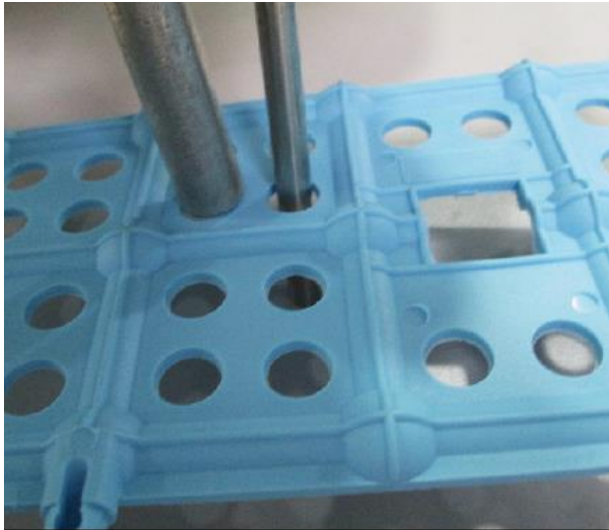

During the testing of this sample, it was found that the product did not comply with the safety requirements for toys:

- ISO 8124-1:2014 – Safety of toys – Part 1: Safety aspects related to mechanical and physical properties

The metal balls and multiple components (as shown below) are small parts which could pose a choking hazard. The product and its packaging do not have information provided in English to warn consumers of these hazards.

The component with multiple small holes (as shown below) poses an entrapment hazard for children's fingers.

The strength of the magnetic bars is too strong and could cause internal injury if two or more of them are accidentally ingested.

No report of incident or injury related to the use of this product has been received to date.

What should consumers do?

Consumers who have bought the product are advised to stop using it immediately.
