IKEA recalls Sundvik changing table/chest of drawers for repairs

IKEA has announced a voluntary recall of the Sundvik changing table/chest of drawers. The foldable part of the changing table/chest of drawers is at risk of becoming loose if not used with the accompanied safety locking fittings, causing children to fall off the changing table.

Affected consumers who have misplaced the safety locking fittings are advised to stop using the product immediately and visit the nearest IKEA store for a new set of fittings.

For more information, please contact IKEA's Customer Contact Centre at 6786 6868.
