

Vita-Mix Corporation (“Vita-Mix”) voluntary corrective action on certain Blending Containers and Blade Bases

Vita-Mix Corporation has announced a voluntary corrective action on Vitamix® 225 ml blending containers, 600 ml blending containers, and blade bases manufactured after May 2018.

The clear containers and black blade bases are included with certain Vitamix Ascent Model blenders such as the Ascent A2300i and Ascent A3500i blenders and also sold separately, as sets, or in bundles.

600ml Blending Container

225ml Blending Container

Vita-Mix Corporation has identified that for the above-mentioned products, the container can separate from the blade base exposing the blades, posing a laceration hazard to consumers.

The company is providing a free repair kit consisting of a protective plastic shroud to attach over the blade base and additional instructional labels.

Consumers should immediately stop using the affected containers and blade bases and [register](#) for the free repair kit.
